To the Chairman & Members of the
Seaton Valley Urban District Council.

Mr. Chairman, Ladies & Gentlemen,

I have the honour to present the annual report on the public health and sanitary conditions of the district for the year ending 31st December 1969. This report has been prepared in accordance with the Department of Health's Circular 1/70. For the greater part of the year Dr. A.W. Hay was Medical Officer of Health until he took up his new appointment at Barrow in Furness.

As is to be expected with the continuing growth of Cramlington New Town, the total population showed an increase in 1969 according to the Registrar General's estimate :

30,320 compared with 28,470 in 1968, an increase of 1,850.

Both Birth and Death Rates show no significant changes compared with 1968, and are in keeping with national figures. The same applies to the Infant Mortality Rate at the satisfactorily low level of 18.0 per 1,000 live births, which is also the figure for England and Wales. The number of cases of infectious disease notified was unusually low, only 40 compared with 146 in 1968.

In conclusion, I would like to express my thanks to the Chairman and Members of the Council for their interest and support in public health measures during the year, and also to thank the Chief Public Health Inspector and staff of the Health Department for their assistance and co-operation.

Your obedient Servant,

G.M. CUBIE,

Medical Officer of Health

2nd October 1970

Infectious Diseases:

The total number of infectious diseases notified during 1969 was 40 as compared with 146 during 1968.

Scarlet Fever:

13 cases were notified during the year as against 5 in 1968.

Diphtheria:

An absence of Diphtheria in the district for the twentyfirst year in succession.

Measles:

There was a substantial decrease in the number of cases notified. 19 cases were notified as against 114 in 1968.

Whooping Cough:

2 cases were notified for the year as against None in 1968.

Births:

The birth rate is lower than in 1968.

Deaths:

The death rate is lower than in 1968.

Water Supply:

The district was supplied throughout the year with good and wholesome water at sufficient pressure to meet all needs (See Section C).

Your cleansing staff comprised:-

1 Foreman	4 Drivers	1 Tipman
1 Man - Work Study	16 Binlifters	1 Salvage man.

The number of working days lost in 1969 was 488 owing to illness and 334 owing to holidays and absence.

Tipping continued at East Cramlington but several outbreaks of fire occurred mainly due to a shortage of suitable covering material.

The provision of a pulverising plant was agreed by the Council and the plant, its attendant salvage depot and the new access road are under construction.

The approximate tonnage of refuse collected is 10358.

Conclusion:

I would like to thank the Chairman and Members of the Council, Dr. Cubie, Dr. Hay and the staff of the Health Department for their support and advice during the year.

Your obedient Servant,

R. SIMPSON,

Chief Public Health Inspector.
